

MEMORANDUM FOR: JSW

From this I would gather that Arthur is playing it dumb and [] is pretty confused. Obviously we know and have known right along that Nicosia doesn't need two extra Greek monitors. Suggest we send a Rybat to [] acknowledging that and pointing out that by transferring both [] this will lay the necessary groundwork to DSR [] As far as [] is concerned the point here is he could assist at the bureau, go on TDY's to Amman, etc. and also sort of be kept on ice in case we need him in Africa or Brindisi at a later date. I was under the impression that all of this was explained to [] but Anyhow, went over this with [] and he agreed it might be prudent to spell this out to Arthur. What thinks you?
